COMPANION

Carefully arranged for the
Traveling Public of the U. S.

REVISED EDITION

T. V. Hassan & Co. Phila.

April, 1881.

ALLEN, LANE & SCOTT, PRINTERS, PHILA'D'A.

WHY HASSAN'S DISTANCE TABLES ARE SO POPULAR.

They will save you the trouble of asking questions when traveling.

They are valuable as a work of reference.

They are compiled from latest official sources, and carefully revised and corrected when necessary.

They are not intended for advertising purposes, but as a standard Guide, or Pocket Companion, for travelers and others.

They contain 112 pages of closely-printed matter, giving Distances on all Railroads in the United States and Canada, General Distances to all parts of the World, Postage, Telegraph, and Hack Rates, Lists of Hotels, and other valuable information, in a condensed form, not to be found in any other book of the kind.

BUY ONE AND YOU WILL NEVER REGRET IT.

ADVICE—READ IT.

Go to the railroad station in time to take the train, and secure a choice seat. Purchase tickets and check your baggage before entering the cars. Keep your head and arms inside car windows.

Beware of sharpers on railroad trains as well as in large cities. Almost daily parties are robbed by the various "confidence games," or by lending money on checks, bonds, or notes on prominent citizens.

Go not into gambling dens, even to gratify curiosity,—the visit will benefit you neither morally nor financially.

Do not allow yourself to be swindled by *hackmen*. The rates of charges, &c. ought to be found in every hack, and on no account should they be varied. We append the laws of the principal cities upon this subject, which should be adhered to strictly by the *traveler* as well as by the *hackmen*.

The admonition to beware of pickpockets is almost superfluous here, yet it may not be amiss to remind you that their favorite resorts are about the doors of theatres, street-cars, and wherever a crowd congregates. Never *unnecessarily* display your pocket-book when traveling.

WHY HASSAN'S DISTANCE TABLES ARE SO POPULAR.

They will save you the trouble of asking questions when traveling.
They are valuable as a work of reference.

They are compiled from latest official sources, and carefully revised and corrected when necessary.

They are not intended for advertising purposes, but as a standard Guide, or Pocket Companion, for travelers and others.

They contain 112 pages of closely printed matter, giving Distances on all Railroads in the United States and Canada, General Distances to all parts of the World, Postage, Telegraph, and Hack Rates, Lists of Hotels, and other valuable information, in a condensed form, not to be found in any other book of the kind.

BUY ONE AND YOU WILL NEVER REGRET IT.

T. V. H. & CO.

ADVICE—READ IT.

Go to the railroad station in time to take the train, and secure a choice seat. Purchase tickets and check your baggage before entering the cars. Keep your head and arms inside car windows.

Beware of sharpers on railroad trains as well as in large cities. Almost daily parties are robbed by the various "confidence games," or by lending money on checks, bonds, or notes on prominent citizens.

Go not into gambling dens, even to gratify curiosity,—the visit will benefit you neither morally nor financially.

Do not allow yourself to be swindled by *hackmen*. The rates of charges, &c. ought to be found in every hack, and on no account should they be varied. We append the laws of the principal cities upon this subject, which should be adhered to strictly by the *traveler* as well as by the *hackmen*.

The admonition to beware of pickpockets is almost superfluous here, yet it may not be amiss to remind you that their favorite resorts are about the doors of theatres, street-cars, and wherever a crowd congregates. Never *unnecessarily* display your pocket-book when traveling.

BUSINESS LAW.

1. Ignorance of the law excuses no one.
2. It is a fraud to conceal a fraud.
3. The law compels no one to do impossibilities.
4. An agreement without consideration is void.
5. Signatures made with a lead pencil are good in law.
6. A receipt for money paid is not legally conclusive.
7. The acts of one partner bind all the others.
8. Contracts made on Sunday cannot be enforced.
9. A contract made with a minor is void.
10. A contract made with a lunatic is void.
11. Contracts for advertisements in Sunday papers are invalid.
12. Principals are responsible for the acts of their agents.
13. Agents are responsible to their principals for errors.
14. Each individual in a partnership is responsible for the whole amount of debts of the firm.
15. A note given by a minor is void.
16. Notes bear interest only when so stated.
17. It is not legally necessary to say on a note "for value received."
18. A note drawn on Sunday is void.
19. A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.
20. If a note be lost or stolen, it does not release the maker; he must pay it.
21. An endorser of a note is exempt from liability if not served with notice of its dishonor within twenty-four hours of its non-payment.

CALCULATING RATES OF TRAVEL.

When a train moves 1.47 feet in a second it is traveling at the rate of one mile per hour, and, of course, goes one mile in sixty minutes.

The following table gives similar data for different rates of movement. The first column indicates the number of miles per hour, the second the corresponding number of feet per second, and the third the time occupied at that rate in running one mile.

Miles per hour.	Feet per second.	Minutes per mile.
1	1.47	60.00
5	7.33	12.00
10	14.67	6.00
12	17.60	5.00
15	22.00	4.00
18	26.40	3.20

60	88.00	1.00

Travelers who wish to amuse themselves by calculating the rate at which they are traveling, can do so by noting the time consumed in passing over the several rails on *their side* of the track. On the best laid roads the sound made by the wheels in passing from one rail to another is quite audible, and may be easily noted. The rails are twenty-four or thirty feet in length; observations made while the train stops at a station will tell the traveler which size is used on the road upon which he is traveling.

RATES OF MORTALITY IN THE OLD AND NEW WORLDS.

It is generally supposed that the rate of mortality is lower in the Old World than in the New. Statistics, however, show that in Europe the annual number of deaths is 1 in every 42 inhabitants, but in this country it is 1 in every 81. In the Gulf States the average yearly proportion of deaths is 1 to every 63; in New England, 1 to 68; in the Southern States, 1 to 70; in the Atlantic and Mississippi Valley States, 1 to 80; in the Western States, 1 to 81; in the Middle States, 1 to 88; in the Pacific States, 1 to 115; in the North-western States, 1 to 120.
